ACE.V

A+

Using the highly regarded unfolding case model developed for Advancing Care Excellence for Seniors (ACE.S), ACE.V cases create a robust, meaningful experience for students providing a simulated experience of continuity of care, helping them provide excellent care to the veterans they serve in their nursing practice.

ACE.Z

While the symptoms of Alzheimer's dementia are prevalent in many practice arenas, the disease behind the symptoms and the many complications caregivers are faced with are often difficult and easily misunderstood. This series of unfolding cases and teaching strategies are designed to help the student become more proficient in understanding Alzheimer's dementia as a disease process and the care management implications.
