

Learning Activity:

LEARNING OBJECTIVES	EXPANDED CONTENT OUTLINE
1. The learner will be able to identify cultural theories that can be used to provide cultural sensitive care to Haitian Americans with type II diabetes mellitus.	The presenter will describe the varied components of cultural theories such as Leininger's Culture Care Diversity and Universality theory (CCDU), Campinha-Bacote's Process of Cultural Competence in the Delivery of Healthcare Services, Giger and Davidhizar's Transcultural Assessment Model and the Purnell Model for Cultural Competence (PMCC).
2. The learner will be able to describe the factors that influence adherence in type II diabetes mellitus.	The presenter will describe socioeconomic, demographic, and lifestyle changes that influence adherence in type II diabetes mellitus.
