

Learning Activity:

LEARNING OBJECTIVES	EXPANDED CONTENT OUTLINE
The learner will be able to describe drivers for development of APN fellowship training in specialty areas.	Review of evidence-based literature related to APN transition to practice and practice gaps in specialty areas • Interactive discussion about the methods used to develop this fellowship
The learner will be able to identify key considerations in the implementation of an APN Fellowship program and relate to other specialty practice areas.	• Review of evidence-based literature related to specialty training • Interactive discussion about the implementation of specialty fellowships, with a focus on the components of this fellowship: Didactic lectures, Clinical experience, Research, and Mentorship
The learner will be able to identify outcomes of the first year of an APN Fellowship program in DBP.	• Review of outcome measures for the first year of a fellowship program • Review of future outcome measures as they relate to APN practice and quality of patient care • Interactive discussion related to the outcomes observed in this fellowship
