---

Behavioral Interventions to Reduce Health  
Disparities Among Vulnerable Populations of  
Ethnic Minority Women and Adolescents

# Context of my research

---

participant population/setting(s)/topics of research/research activities

# Recruitment strategies

---

What were the recruitment goals/sampling frame(s)/recruitment activities that were productive?

# What challenges did you encounter and how did you address them?

---

- \* Recruiting undocumented immigrant populations
- \* Immigration and Customs Enforcement presence at research/recruitment events
- \* Recruiting populations who fear their children will be removed from them by Child Protective Services

# What challenges did you encounter and how did you address them?

---

- \*Collecting biological samples from vulnerable populations
- \* Employing electronic monitoring devices (e.g. vocal recording devices) with vulnerable populations

# What are the ideas you've had in hindsight?

---

What do you wish you'd tried, or you wanted to do but for whatever reason couldn't?

What mistakes did you make that we should avoid?
